SCHOOL PROFILE

Doreen Primary School is a small semi rural school located 40km north east of Melbourne in the foothills of the Great Dividing Range. Its enrolment over the past 10 years has increased from 100 – 162 students. In 2022 it reached its highest enrolment ever of 162 students, and has an enrolment cap of 150.

The school has been a focal point in the community for the last 153 years, both as an educational facility and a community meeting place. With the development of housing estates taking place in the area, the population centre will move away from this setting, with children coming to school by bus or parent transport. Since the development of the first school charter, the enrolment catchment for the school has shown a higher percentage of children from the immediately local area. With development in the local area, as well as two government P-6 schools opening within the development precinct, enrolments will continue at these levels, the new schools catering for an enrolment close to 1000. Along with the existence of 2 independent P-12 schools within 3km of the school, it means the school must continue to cultivate its reputation in the area as a quality educational setting. This could potentially mean a drop in the intake area of this school, but as it is a relatively small school, it attracts parents looking for this type of environment.

Our school has always been actively involved in providing a safe, positive and supportive environment so each individual can reach their full potential. We aim to ensure that our school is looked upon as an extended family environment. At Doreen we believe that education is a partnership between the school, the parents and the community. Development of Student Leadership is entrenched in our culture, and is being developed with focussed programs for all older students. Results from surveys conducted for the recent school review indicate the school community values the focus on developing students on a personal basis as well as academically, and that we are doing it well.

Within this environment we encourage students to develop self discipline, cooperative attitudes, to take pride in their school and their work, to respect others, and to value their achievements. We aim for children to achieve the skills and attitudes necessary to make positive and informed decisions in all aspects of their future. A Junior School Council operates effectively, and children are involved regularly in the development of the Student Code of Conduct.

Involvement of the stakeholders in our school is always a focus.

The school aims to provide learning experiences in all areas of the Victorian Curriculum as required by the Victorian government. A focus on sequential and developmental programs in literacy and numeracy that are consistent across the whole school is encouraged, and Early and Middle Years programs running throughout the School. A Language Intervention program providing a safety net for children at risk runs from P-6. Specialist programs are also run in Music, Art, L.O.T.E. (AUSLAN), PHYS. ED. and Library by means of the school Library visit and a lunch time borrowing system. Swimming, camps, Bike Education, Science, Phys. Ed. and excursions are also integral parts of our program.

¹ 'Teacher' means all persons registered under the *Education and Training Reform Act 2006*

Our school often combines with other small schools in our area to access additional activities such as interschool sport, cultural experiences and to provide additional opportunity for social interaction. Professional development for staff is also a product of this cooperation. A collegiate group for principals of like schools, and regular teacher PLT's, Curriculum Days, ESO and Bursar groups mean staff isolation is reduced as much as possible, and PD on a wider basis is given.

The school playground provides a large, diverse and interesting environment for children to experience, with features such as a basketball court, a sports field, grassed and paved areas, along with many mature and historically valuable trees. The school buildings are comprised of seven general classrooms, specialist Art/Craft/Music rooms, library, kitchen, office, and staffroom. Children have access to learning and information technologies regularly, with a focussed skill program ensuring all children can effectively make use of these valuable resources. These facilities provide a stimulating and well resourced learning environment. The school community work together to ensure that facilities are maintained, at a high standard. Our funding resources are maximised in this area by the enthusiastic involvement of our school families. A School Facilities Master Plan has been funded and produced to cater for the growth in students, and allows for facility changes which are both functional and environmentally sound. Solar panels, water tanks and sewerage treatment focus on a small environmental footprint.

As Doreen Primary School is located in a growth corridor, the School Council is continually assessing school and students needs; planning future developments; and is dedicated to bringing quality education to our students. The Facilities Master Plan was developed to ensure the school is able to respond to enrolment growth in a manner which will not endanger its current culture and atmosphere, which has attracted the current school community. Many current members of the community see the growth of the student population as putting the current culture at risk. This is a management challenge: to keep the present school culture whilst assimilating growth.

A recent Stae government allocation of \$200, 000 for outdoor classrooms and \$5.4 Million for building upgrades has been a recent positive development.

CREATING A POSITIVE SCHOOL CULTURE

The creation of a positive school culture that is fair and respectful for all is a must for a school to be an effective learning environment. At Doreen Primary School student engagement, regular attendance, punctuality, behaviour and parent participation are actively promoted in the School Newsletter; on the School Website; as well as at assemblies, concerts and Public Meetings.

At Doreen Primary School we endeavour to provide our students with a secure learning environment free from harassment, and one in which individuals are treated with respect,

1 'Teacher' means all persons registered under the *Education and Training Reform Act 2006*

courtesy and care. These expectations are extended to include teachers and parents.

Developing a supportive learning environment is a focus, where children are encouraged to be independent, resilient and diligent people. The concept of “my best is good enough” is mandated, and children are encouraged to develop goals and plans to achieve positive outcomes. Consequences of actions are not only seen as a result of poor behaviour, but the good things that happen when a child achieves a good result. Whilst physical rewards in the form of certificates and awards are present in the school, the values of intrinsic rewards are always promoted. Children are encouraged to enjoy their successes by their peers, teachers and parents.

Restorative Justice is the first action taken by staff when dealing with altercations and problems in the school. The focus on children understanding the position of their peers in a dispute creates understanding and empathy between children, a positive in any school yard.

School programs are focussed on allowing children to reach their full potential across many curriculum areas. The Curriculum at this school is rich and diverse, allowing for the diverse talents and interests of our students. The school has a Teaching and learning Policy which promotes sequential, developmental programs which call on teachers to use a variety of methods to engage and educate their students. Explicit teaching is the skeleton to all programs, with the use of ICT among the many resources used to enhance concepts and skills.

The education process is seen as a seven year progression at Doreen Primary School, where the outcomes of our students are seen as paramount in all decision making. Repeat years are an option, as are intervention programs and extension activities. All programs are held to account against student engagement and student outcomes, as well as effectiveness. Junior School Council is an area that brings student voice into the school. It is promoted, valued and an activity that enjoys the physical presence of all students in a meeting once a week, with elected Student Leaders in charge. Children not only deal with local issues, but raise money for charities, events, a school pet and a sponsored child in Cambodia.

Student Conflict resolution procedure

STRATEGY FOR BEHAVIOUR MANAGEMENT

Stage One - “Working Out” stage between pupil and teacher

Process: Discussion. During discussion between teacher and student an attempt will be made to reach understanding.

Using Restorative Practice Techniques as a basis for this stage.

Possible consequences:

A. Warning with agreed consequences in the event of subsequent misdemeanour.

B. Removal of privileges.

C. Community service assisting the school community by cleaning areas of the school ground during recess and/or lunchtimes.

D. Time out, this means physical isolation within the room, activity centre or yard where the child can be observed by the teacher.

Stage Two - Unresolved and/or continual problems

Process: Interview/discussion. Parent/teacher/pupil interview, anecdotal record of discussion and decisions reached to be maintained.

Possible consequences:

¹ ‘Teacher’ means all persons registered under the *Education and Training Reform Act 2006*

- A. Removal of privileges.
- B. Extended community service.
- C. Exclusion from room/yard - in appropriate space with supervision.
- D. Seeking specialist assistance - eg Student Services.

Stage Three - Continued or major misconduct stage

Assistance may be sought from outside agencies to assist in the development of appropriate individualised behaviour modification programs.

Stage Four – Internal/External Suspension or Expulsion as per Department of Education and Early Childhood Development.

Teaching and Learning strategies

TEACHING FOR CURIOSITY AND ACHIEVEMENT

WHOLE SCHOOL THEORIES OF ACTION

1. When schools and teachers set **high expectations and develop authentic relationships** then student confidence, curiosity and commitment to education increases and the school's ethos and culture deepens and curiosity can flourish.
2. When explicit teaching occurs, students are engaged in developmental and sequential programs that build scaffolding for extension into Enquiry based activities.
3. When teacher directed instruction becomes more **Inquiry focused** the level of student engagement and achievement increases. This is the foundation stone for high quality teaching and the development of curiosity. A greater emphasis on inquiry leads to improved achievement and curiosity is enhanced.
4. By consistently adopting **protocols for teaching** student behavior and engagement is enhanced.
5. **Learning protocols** enhance student capacity to learn, develop skills, confidence and curiosity and ensure that this happens in all classes.

THEORIES OF ACTION FOR TEACHERS

1. **Learning intentions, pace and narrative** lead to students being more secure about their learning (and more willing to take risks); and achievement and understanding is increased and curiosity enhanced.
2. Teachers systematically using **higher order questioning** leads to the level of student understanding deepening and the level of achievement increasing. Students who are regularly required to analyse, synthesise and evaluate are more likely to be curious.
3. When **cooperative group structures/techniques** are used to mediate between whole class instruction and students carrying out tasks, then the academic performance of the whole class will increase as well as the spirit of collaboration and mutual responsibility. Curiosity will be developed as students learn from each other in a structured manner.
4. When teachers consistently use **feedback and data** on students' actions and performance, then behavior becomes more positive, progress accelerates and curiosity is enhanced.
5. When **peer assessment and assessment for learning** are consistently utilized student engagement, learning and achievement accelerates. Curiosity will be enhanced as the depth of student understanding increases.
6. When **learning tasks** are purposeful, clearly defined, differentiated and challenging, (according to the student's Zone of Proximal Development) then the more powerful, progressive and precise the learning for all students. Curiosity will be enhanced and students work at a level appropriate to

1 'Teacher' means all persons registered under the *Education and Training Reform Act 2006*

their understanding.

7. When explicit teaching takes place, all stake holders are engaged and focused on outcomes.

Appendix A

THE VICTORIAN TEACHING PROFESSION CODE OF CONDUCT

INTRODUCTION

The Code of Conduct has been developed for and by the Victorian teaching profession. It identifies a set of principles, which describe the professional conduct, personal conduct and professional competence expected of a teacher¹ by their colleagues and the community. It is based on the values set out in the accompanying Code of Ethics, namely

Integrity

Respect

Responsibility

and draws on the Victorian Institute of Teaching's Standards of Professional Practice, and Codes of Conduct for teachers developed by schools and other registration authorities.

PURPOSE

The Code of Conduct codifies what is already common practice within the teaching profession.

Its purpose is to:

- promote adherence to the values teachers see as underpinning their profession
- provide a set of principles which will guide teachers in their everyday conduct and assist them to solve ethical dilemmas
- affirm the public accountability of the teaching profession
- Promote public confidence in the teaching profession.

The Code of Conduct is not a disciplinary tool.

The Code of Conduct will not cover every situation. There may be policies or procedures set down by the sector/school in which the teacher works, or there may be specific issues that are covered by an industrial agreement or award.

INTEGRITY

SECTION 1: PROFESSIONAL CONDUCT

Teachers' professional conduct is characterised by the quality of the relationships they have with their students, their students' parents (guardians and caregivers), families and communities and their colleagues.

¹ 'Teacher' means all persons registered under the *Education and Training Reform Act 2006*

RELATIONSHIPS WITH STUDENTS

PRINCIPLE 1.1: TEACHERS PROVIDE OPPORTUNITIES FOR ALL STUDENTS TO LEARN

The main focus of teaching is student learning. Teachers demonstrate their commitment to student learning by:

- a** knowing their students well, respecting their individual differences and catering for their individual abilities
- b** maintaining a safe and challenging learning environment
- c** accepting professional responsibility for the provision of quality teaching
- d** having high expectations of every student, recognising and developing each student's abilities, skills and talents
- e** considering all viewpoints fairly
- f** communicating well and appropriately with their students.

PRINCIPLE 1.2: TEACHERS TREAT THEIR STUDENTS WITH COURTESY AND DIGNITY

Teachers:

- a** work to create an environment which promotes mutual respect
- b** model and engage in respectful and impartial language
- c** protect students from intimidation, embarrassment, humiliation or harm
- d** enhance student autonomy and sense of self worth and encourage students to develop and reflect on their own values
- e** respect a student's privacy in sensitive matters, such as health or family problems, and only reveal confidential matters when appropriate. That is: if the student has consented to the information being used in a certain way to prevent or lessen a serious threat to life, health, safety or welfare of a person (including the student) as part of an investigation into unlawful activity if the disclosure is required or mandated by law to prevent a crime or enforce the law
- f** refrain from discussing students' personal problems in situations where the information will not be treated confidentially
- g** use consequences commensurate with the offence when disciplining students.

PRINCIPLE 1.3: TEACHERS WORK WITHIN THE LIMITS OF THEIR PROFESSIONAL EXPERTISE

In fulfilling their role, teachers carry out a wide range of responsibilities. They support students by knowing their strengths and the limits of their professional expertise. Teachers:

- a** seek to ensure that they have the physical, mental and emotional capacity to carry out their professional responsibilities
- b** are aware of the role of other professionals and agencies and when students should be referred to them for assistance
- c** are truthful when making statements about their qualifications and competencies.

¹ 'Teacher' means all persons registered under the *Education and Training Reform Act 2006*

RESPECT

PRINCIPLE 1.4: TEACHERS MAINTAIN OBJECTIVITY IN THEIR RELATIONSHIPS WITH STUDENTS

In their professional role, teachers do not behave as a friend or a parent. They:

- a** interact with students without displaying bias or preference
- b** make decisions in students' best interests
- c** do not draw students into their personal agendas
- d** do not seek recognition at the expense of professional objectivity and goals.

PRINCIPLE 1.5: TEACHERS ARE ALWAYS IN A PROFESSIONAL RELATIONSHIP WITH THE STUDENTS IN THEIR SCHOOL, WHETHER AT SCHOOL OR NOT

Teachers hold a unique position of influence and trust that should not be violated or compromised. They exercise their responsibilities in ways that recognise that there are limits or boundaries to their relationships with students. The following examples outline some of those limits. A professional relationship **will** be violated if a teacher:

- a** has a sexual relationship with a student
- b** uses sexual innuendo or inappropriate language and/or material with students
- c** touches a student without a valid reason
- d** holds conversations of a personal nature or has contact with a student via written or electronic means including email, letters, telephone, text messages or chat lines, without a valid context
- e** accepts gifts, which could be reasonably perceived as being used to influence them, from students or their parents.

A professional relationship **may** be compromised if a teacher:

- a** attends parties or socialises with students
- b** invites a student or students back to their home, particularly if no-one else is present.

RELATIONSHIPS WITH PARENTS (GUARDIANS, CAREGIVERS), FAMILIES AND COMMUNITIES

PRINCIPLE 1.6: TEACHERS MAINTAIN A PROFESSIONAL RELATIONSHIP WITH PARENTS (GUARDIANS AND CAREGIVERS)

Teachers should be respectful of and courteous to parents. Teachers:

- a** consider parents' perspectives when making decisions which have an impact on the education or wellbeing of a student
- b** communicate and consult with parents in a timely, understandable and sensitive manner
- c** take appropriate action when responding to parental concerns.

PRINCIPLE 1.7: TEACHERS WORK IN COLLABORATIVE RELATIONSHIPS WITH STUDENTS' FAMILIES AND COMMUNITIES

Teachers recognise that their students come from a diverse range of cultural contexts and seek to work collaboratively with students' families and communities within those contexts.

1 'Teacher' means all persons registered under the *Education and Training Reform Act 2006*

RELATIONSHIPS WITH COLLEAGUES

PRINCIPLE 1.8: COLLEGIALLY IS AN INTEGRAL PART OF THE WORK OF TEACHERS

Teachers demonstrate collegiality by:

- a treating each other with courtesy and respect
- b valuing the input of their colleagues
- c using appropriate forums for constructive debate on professional matters
- d sharing expertise and knowledge in a variety of collaborative contexts
- e respecting different approaches to teaching
- f providing support for each other, particularly those new to the profession
- g sharing information relating to the wellbeing of students

RESPONSIBILITY

SECTION 2: PERSONAL CONDUCT
